We want to remind you that 1st of March is a special day in Iceland, it has then been 24 years since the beer was legal again (was prohibited in the years 1915-1989). It is therefore a tradition to celebrate the beer day the 1st of March. **After the BOWLING competition we would like to go with you all and celebrate the BEER DAY together at Stúdentakjallarinn. See you there!**
