A summer programme of the University of Hull and the Utrecht Network.

Professional English is both a language and culture programme

The programme is designed:

- to offer an opportunity for participants to refresh and further improve their language skills. The Professional English Programme uses lectures from specialists in diverse subjects as a framework for discussions, presentations and further individual and group research.
- to focus on the use of the formal language as used, for example, in lectures, seminars, academic writing and meetings. Consideration is also given to how regional and informal styles serve to shape contemporary communications.
- to address specific issues such as oral or aural difficulties, weaknesses in formal, written communication.
- to provide participants with the opportunity to actively practise their English across a range of skills, and to use this opportunity to further develop any area(s) of specific interest.

Maximum class sizes are limited to 18 with some smaller group sessions and some opportunities for one-to-one work. Participants will also have access to our Language Learning Centre facilities and individual sessions with our Language Learning Advisers. Lectures may contain up to 36 participants.

Who is this programme intended for?

This programme is intended for individuals who already have a relatively good command of English, but who wish to up-date or further refine their language.
